**Kuwait News****Sheikha vows appropriate action at 99.'bleep'; DJ said to have left Kuwait**

KUWAIT CITY, Oct 19: Appropriate action will be taken against the female DJ of FM 99.7, who was said to be allegedly drunk on the show and reportedly abused a caller, says Sheikha Shejoun Al-Sabah, the Head of FM 99.7. According to a reliable source, the DJ identified as Latina Mina, reportedly took a flight out of Kuwait on Saturday evening. When asked to confirm, Sheikha Shejoun said that she was not aware of this and offered no further comment on the issue. The incident has generated tremendous interest among bloggers who had a field day on Thursday evening by extensively blogging on the story. The DJ, who reportedly has a Kuwaiti nationality, found herself at the center of the controversy when a host of listeners claimed that the DJ was drunk while on air Thursday evening on Super Station 99.7.

Another DJ told her she was embarrassing the radio station, but the female DJ allegedly cursed and the programme was taken off the air. The report could not be independently confirmed. According to a blogger, the DJ was reportedly drunk and was slurring throughout the show. A listener, who spelt trouble for her, called in at a time when the radio station personnel thought they were off air. The caller is said to have abused the DJ, saying that she was a 'drunk hoochie'. Reacting to the comments, the miffed DJ allegedly used the four-letter word several times. Assuming that they were off air while heated words were being exchanged, the DJ (Latina Mina) came back on air to sign off, saying "there are a lot of haters out there who need to get an education."
